

French's Nursing Charity.

The French's Nursing Charity was set up in 1902 by the Rev. Frederic French the Rector of the parish, for the benefit of mothers following childbirth, who reside in the parishes of Worlingworth and Southolt.

The Trustees consist of the Rector, and Church wardens of Worlingworth and a representative from Southolt, Mrs. Gill Richardson.

The charity has investments which generate income, although with relatively low returns in the present financial market.

In recent years we have been able to make a modest gift of £25 to mothers on the birth of their babies.

We try to include every new born baby and we hope to reach everyone. Some mothers are on our list for their cheques, while we fear others may not have been brought to our attention.

We are a growing village with many new homes for families, so we often rely on the local news network to bring our attention to babies being born.

If you have contact with families, perhaps through School or Homestart, and are aware of someone who has had or is expecting a baby please bring it to the attention of the trustees so that we can celebrate the birth with a small gift to them.

Trustees.

Rev. David Burrell.
